This leaflet is designed to make you aware of the Sexual Health Clinics in your area and what we can do to help you.

We have three Sexual Health Clinics in Surrey that can help and support you to stay safe when having sex.

Our clinics have friendly staff who will listen to you and treat you with respect.

If you think you are ready to have sex, come and talk to us and we can offer you advice and support.

If you have had sex and are worried about an infection or pregnancy we will help you.

How can we help you?

Free condoms and contraception

Testing for Sexually Transmitted Infections

How can we help you?

Treatment if you need It

We're an inclusive service and we support people from all communities.

What happens when you visit us?

Go to the Reception Desk and tell the member of staff your name and the time of your appointment.

The member of staff will ask you to take a seat and wait to be seen.

You are very welcome to bring someone to the clinic with you if that would help to make you more comfortable.

There is space at the end of this leaflet to write down any questions you have – you can bring this to your appointment.

If a member of staff is worried about you they will tell you and they might need to call someone else to come and help.

You will be seen in private during your appointment.

Staff may need you to take some of your clothes off. They might also need to see private parts of your body.

If you become upset at any point you can tell the staff and they will talk to you and explain what is happening.

You have the right to say 'Stop!' if you are not comfortable.

What's Next?

Once you have visited us we will let you know your results. We will ask you how you would like us to do this

If you need to take any medicines then we will make sure you know exactly what to do.

If you need another appointment to check that you are ok then we will help you.

My Notes

If you have any questions or anything you would like staff to know about you then write it down here and bring it with you to your appointment:

Medication that I take

I am allergic to

The best way to talk to me is

I really don't like

I am worried about

**Well done for being responsible and
looking after your sexual health!**
