Medical advances mean people living with HIV in the UK can expect a long and healthy life and that we have the tools to stop HIV transmissions for good. But HIV continues to be highly stigmatised and misunderstood.

Join us to celebrate World Aids Day 2024 to update your knowledge on HIV, hear experiences from people living with HIV and find out how you can contribute towards fighting stigma in Surrey.

Agenda:

- Update on HIV
- Living with HIV today
- How can we increase testing
- What can we do to help fight HIV stigma?
